Mission
De Paul Treatment Centers works with individuals, families and communities to create freedom from addiction.
De Paul serves the community and those affected by the disease of addiction. Using proven and effective treatment strategies, De Paul strives to build healthy and hopeful communities in recovery.

Values
Faith  Respect  Trust
Humility  Courage  Integrity
Love  Unity  Creativity

Philosophy
Treatment at De Paul is based on the belief that chemical dependency develops within the context of an individual’s heredity and environment. We view addiction as a complex, chronic and treatable illness. We believe that all individuals have within them innate health and the capacity to recover.
De Paul uses comprehensive, multi-disciplinary, culturally appropriate and evidence-based practices that address the needs of the whole person, family and community. We support participation in groups such as the anonymous fellowships that provide inspiration and hope.

Quality
For nearly 40 years, De Paul has worked with more than 30,000 individuals and families to create freedom from addiction. De Paul’s programs are nationally accredited through the Commission on Accreditation of Rehabilitation Facilities (CARF).
The De Paul Adult Residential and Outpatient Center, on SW Washington & 13th, provides detox, residential, day treatment, outpatient and DUII treatment services. Our Outpatient Services Center in Hillsboro provides outpatient and DUII treatment services. Alder House is an affordable housing complex owned by De Paul and houses many outpatient and day treatment clients and has drug and alcohol free housing options. We help our clients remove the barriers that prevent them from enjoying ongoing recovery. We assist them in understanding how treatment and the recovery process will improve their lives, create lasting, healthy, and supportive relationships, and making decisions that are in their best interest.

“Sometimes I have to pinch myself because I can’t believe I am here. De Paul made me see value in life and myself.”

-Walter B., former client and current De Paul men’s counselor
The De Paul Youth & Family Center in Northeast Portland provides a welcoming and empowering environment for youth, families, and the community. Both the residential and outpatient programs offer comprehensive chemical dependency treatment for adolescent girls and boys 13-17 years of age. Integrated mental health treatment and counseling services are available if needed in co-occurring diagnosis clients. Our programs and staff offer a therapeutic setting that provides stabilization and skill training. The accredited De Paul Alternative School was established in 1990. It is designed to support all students to achieve their highest educational and personal potential while in treatment. We believe that intellectual growth and critical thinking skills are key to young people’s sustained sobriety.

“De Paul gave me great support and was a safe place for my first steps at a new life. I learned that you can make a change and enjoy life with all its ups and downs.”

-Peter S., former youth client

School-Based Services
We believe wellness happens in the context of relationships. We recognize the uniqueness of each individual and family. We begin our work with families where they are and we respect their choices.

We recognize that families are a main source of support during all phases of treatment and they accompany their loved ones through the recovery process. We work to engage families and support persons in our treatment and educational programs. These include case management, individual and multifamily group therapy, and couples counseling. Family counseling is available to all clients and their families.

We have found that clients engaged in our family programs have a successful completion rate of 87% compared to 44% for those who did not have family members involved.

“We learned new tools to enable our family to rebuild trust and feel comfortable to openly communicate with each other in a constructive, respectful and positive way when working through family issues. I will forever be grateful for not giving up on my son. Thank you.”

-Family Therapy Survey

549 youth and adult clients engaged in family therapy services while receiving residential treatment
Full Continuum of Care
We are the only treatment facility in our area that provides continuity of services from Detox to Residential, Day Treatment and Outpatient care. With this full continuum, client care is not disrupted by changing of providers and counselors, and allows clients to build lasting relationships with their treatment team for successful outcomes.

Mind & Body
We believe that treating the whole person and teaching people to live from the inside out enhances the likelihood of maintaining recovery. Our partnerships with Living Yoga, Western States Chiropractic, The Red Lizard Running Club, Tooth Taxi, and Medical Teams International provide wraparound services that allow the healing of the body, mind, and spirit.

Personalized Treatment
We assess each person’s strengths, needs, abilities, and preferences to develop an individual plan to meet their specific goals. Our role is to help with education, skill building, and developing healthy lifestyles that support recovery. Skill building topics include employment, housing, health, nutrition and parenting. Case managers and counselors work hand in hand with clients on their personal post treatment transition plans. When available, clients who have completed residential treatment can transition into housing at Alder House and continue with either day treatment or outpatient treatment.

“Before coming to De Paul I was one of those difficult teenagers getting into trouble. During my time at De Paul I learned anything is possible. The more I got involved the more I loved each day. My peers and counselors were really awesome. I give most, if not all, the credit to De Paul for getting me on the right path. Now I am joining Job Corps next week and looking forward to the future”

- Gabe G.
Many Thanks to Our Donors

Each year with the compassion from individuals, foundations, corporations, and grants, De Paul has the opportunity to make people’s lives and our community a better place. Donors listed contributed between July 1, 2013 and June 30, 2014. Thank you for your generous contributions.

De Paul presents the Freedom Award to members of the community who openly share their story of recovery and dedicate their time, resources, and energy to helping people struggling with a substance use disorder. Their journeys to recovery serve as inspiration to all of us.

Samuel C. Wheeler Freedom Award

At the 14th Annual Freedom Award Luncheon De Paul honored Sam Wheeler as a long-time champion, generous donor and friend to those seeking new lives in recovery. We renamed the award the Samuel C. Wheeler Freedom Award. We are forever grateful for his and the Wheeler Foundation’s support. One of his sons, Ted Wheeler, now Oregon's state treasurer, once described his father as "Genuine. What you see is what you get." Like the state he served and loved, Sam Wheeler was as authentic as they come.

Mark O'Donnell

The 2013 Samuel C. Wheeler Freedom Award was presented to Mark O'Donnell on September 12th, 2013. Over 350 people attended the luncheon and helped raise close to $200,000 to support services at the De Paul Youth & Family Center.

Mark has been practicing law in Portland since 1968 and is the managing partner of O’Donnell Clark & Crew LLP. An active member of the Loyola AA Men’s Group for over 22 years, he firmly believes in AA, its 12 steps and fellowships. Mark attributes his long-term recovery to making it possible for him to lead a useful, serene and joyful life.

2013 Freedom Award Sponsors

Wheeler Foundation, Maybelle Clark Macdonald Fund, O'Donnell Clark & Crew LLP, Northwest Medical, Beecher Carlson, Kaiser Permanente, Legacy Health Systems, PavelComm, St. Mary’s Academy, Thede Culpepper Moore Munro & Silliman LLP.

“Alcohol is probably the most prevalent serious long-term disease in the United States. For every alcoholic there are four or five people badly impacted by alcoholism.”
